Approval Status: not_required

Final Response:
ABC Technologies offers Starter, Professional, and Enterprise plans. The Starter plan is for small teams, Professional adds automation and advanced reporting, and Enterprise includes SSO, dedicated support, and custom compliance options. Knowledge base reference: ABC Technologies - Frequently Asked Questions Q: What are the main features of your software? A: Our software includes cloud synchronization, real-time collaboration, advanced analytics, and comprehensive API access. All plans include our core features with varying limits based on the plan tier. Q: How do I reset my password? A: You can reset your password by clicking "Forgot Password" on the login page. Enter your email address and follow the instructions sent to your inbox. If you don't receive the email, check your spam folder or contact support. Q: Do you offer a free trial? A: Yes! We offer a 14-day free trial of our Professional plan with full access to all features. No credit card required to start your trial. Q: Can I upgrade or downgrade my plan anytime? A: Absolutely! You can change your plan at any time from your account settings. Changes take effect at your next billing cycle. Q: How do I contact support? A: You can reach our support team via email at support@abc-tech.com or through the chat widget in your account dashboard. We typically respond within 24 business hours. Q: Is my data secure? A: Yes, we use enterprise-grade encryption for all data in transit and at rest. We comply with GDPR, CCPA, and SOC 2 Type II standards. Q: What file types can I upload? A: We support PDF, DOCX, XLSX, PPTX, PNG, JPG, and TXT files up to 100MB each. Premium plans can upload files up to 500MB. Q: How often is my data backed up? A: Your data is backed up continuously in real-time across multiple geographic regions for redundancy and disaster recovery. Q: Can I export my data? A: Yes, you can export all your data as JSON, CSV, or native file formats from the Export section in settings at any time. Q: Is there an API available? A: Yes! All paid plans include API access with rate limits based on your tier. Documentation is available in your account dashboard. ABC Technologies - Pricing Guide AVAILABLE PLANS Starter Plan - \$29/month - Up to 10 projects - 5 team members - 50GB storage - Email support - Basic API access (100 requests/day) - Monthly billing Professional Plan - \$99/month - Unlimited projects - 50 team members - 500GB storage - Priority email & chat support - Full API access (10,000 requests/day) - Advanced analytics - Custom branding - Monthly or annual billing (save 20% annually) Enterprise Plan - Custom pricing - Dedicated infrastructure - Unlimited everything - 24/7 phone support - SLA guarantee - Custom integration support - Multi-workspace management - Advanced security features - Annual billing required PRICING DETAILS All plans include: - Real-time collaboration - Cloud synchronization - Basic analytics dashboard - Mobile app access (iOS/Android) - Community forum access - 99.9% uptime SLA Storage limits: - Starter: 50GB total - Professional: 500GB total - Enterprise: Unlimited Team member limits: - Starter: 5 users - Professional: 50 users - Enterprise: Unlimited BILLING INFORMATION - Monthly billing available for Starter and Professional plans - Annual billing provides 20% discount - Enterprise plans billed annually by default - All prices in USD - No long-term contracts required - Cancel anytime with 30-day notice ADD-ONS Advanced Security Package - \$49/month - Two-factor authentication - Single sign-on (SSO) - IP whitelisting - Advanced audit logs Storage Add-on - \$10 per 100GB/month - Additional storage beyond plan limits - Can be added to any plan Premium Support - \$49/month - Priority response times (2 hours) - Dedicated support specialist - Quarterly business reviews PAYMENT METHODS We accept: - Credit cards (Visa, Mastercard, American Express) - Bank transfers (ACH) - Wire transfers - Purchase orders (Enterprise only) All payments processed securely with PCI DSS compliance. Customer: P Kriti
Query: my application crashes wheeneveer i upload something
Intent: Technical
Department: Technical Support
Retrieved Sources: faq.txt, technical_manual.txt
Approval Required: False
Approval Status: not_required

Final Response:
I am routing this to Technical Support. For upload-related crashes, please retry with a supported file type, keep the file below the allowed size limit, clear the browser cache, and try again in a current browser. If the crash continues, share the file type, file size, browser, and any error message so the team can investigate. Knowledge base reference: ABC Technologies - Frequently Asked Questions

ABC Technologies - Technical Manual & Troubleshooting
SYSTEM REQUIREMENTS
Minimum Requirements - Windows 10 / macOS 10.14 / Ubuntu 18.04 or later - 4GB RAM (8GB recommended) - 500MB free disk space - Internet connection (broadband recommended) - Modern web browser (Chrome, Firefox, Safari, Edge)
Browser Compatibility - Google Chrome 90+ - Mozilla Firefox 88+ - Safari 14+ - Microsoft Edge 90+ - Mobile browsers: iOS Safari 14+, Android Chrome 90+
Installation
Desktop Application
1. Download installer from abc-tech.com/download
2. Run installer (.exe on Windows, .dmg on Mac)
3. Follow installation wizard
4. Launch application
5. Log in with your account
Web Application
1. Visit app.abc-tech.com
2. Sign in with email and password
3. Grant browser permissions when prompted
4. Start using immediately
Mobile Apps
- iOS: Download from Apple App Store
- Android: Download from Google Play Store
- Sign in with same credentials as web
COMMON ISSUES & SOLUTIONS
Issue: Application crashes when uploading files
Symptoms - App freezes or closes unexpectedly - Upload dialog doesn't respond - File appears stuck in queue
Causes - File size exceeds limit for your plan - Unsupported file format - Poor internet connection - Browser cache issues - Insufficient disk space
Solutions
1. Check file size (limit depends on your plan) - Starter/Professional: 100MB - Enterprise: 500MB
2. Verify file format (PDF, DOCX, XLSX, PPTX, PNG, JPG, TXT)
3. Try different browser
4. Clear browser cache: - Chrome: Settings > Privacy > Clear browsing data - Firefox: History > Clear Recent History
5. Check internet connection speed (minimum 2 Mbps upload)
6. Restart application
7. Try uploading smaller file to test
File Upload Troubleshooting
File Won't Upload - Check file size and format - Verify internet connection - Try with different file - Wait 5 minutes and retry - Clear browser cache - Disable browser extensions - Try incognito/private browsing mode
Upload Stuck or Frozen - Wait 5 minutes (uploads may take time) - Close and restart application - Check internet connection - Try uploading via mobile app - Contact support if issue persists
File Format Issues
Supported Formats - Documents: PDF, DOCX, XLSX, PPTX, TXT, CSV - Images: PNG, JPG, GIF, WEBP - Others: JSON, XML (for API integrations)
Format Troubleshooting - DOCX file: Try exporting as PDF from Office - PDF file: Ensure not password-protected - Excel file: Save as XLSX, not XLS - Images: Compress if larger than 50MB
CONNECTION ISSUES
Slow Performance
Causes & Solutions - Check internet speed (use speedtest.net) - Reduce number of open tabs/applications - Update browser to latest version - Disable browser extensions temporarily - Clear browser cache and cookies - Check browser storage quota - Try different browser - Restart router/modem
If performance slow only for your account: - Log out and log back in - Clear local app cache - Uninstall and reinstall application - Contact support with network diagnostic info
Connectivity Loss
If connection drops:
1. Check internet connection
2. Reload page (browser) or restart app (desktop)
3. Auto-reconnect should restore connection
4. Unsaved work saved after reconnection
5. If issue persists, contact support
ACCOUNT & LOGIN ISSUES
Can't Log In
Troubleshooting
1. Verify username/email is correct (check for typos)
2. Verify caps lock is off
3. Reset password if forgotten
4. Check email for account confirmation if new account
5. Wait 10 minutes if account recently created
6. Clear browser cookies
7. Try incognito/private browsing
8. Try different browser
9. Disable VPN/proxy temporarily
Two-Factor Authentication Issues - Ensure 2FA app is synced with device time - Regenerate backup codes from account settings - Disable and re-enable 2FA - Contact support if locked out
SECURITY & PERFORMANCE
Password Best Practices - Use at least 12 characters - Mix uppercase, lowercase, numbers, symbols - Avoid dictionary words - Don't reuse passwords across sites - Change password every 90 days - Never share password via email or chat
Enable Two-Factor Authentication (2FA)
1. Go to Account Settings
2. Click Security
3. Enable Two-Factor Authentication
4. Scan QR code with authenticator app
5. Enter verification code to confirm
6. Save backup codes in secure location
Data Backup & Export
Backup Your Data
1. Go to Settings > Export
2. Select data to export (Projects, Files, Settings)
3. Choose format (JSON, CSV, ZIP)
4. Click Export
5. File downloads to your computer
Regular Backups - Export data monthly - Store backups in safe location - Keep multiple copies - Test restores periodically
API INTEGRATION
API Basics - Endpoint: api.abc-tech.com/v1 - Authentication: Bearer token - Rate limits: Based on plan tier - Documentation: dashboard.abc-tech.com/api/docs
Getting Started with API
1. Generate API key in account settings
2. Use key in Authorization header
3. Include Content-Type: application/json
4. Send requests to API endpoint
5. Handle error responses appropriately
Example API Call
curl -X GET https://api.abc-tech.com/v1/projects \ -H "Authorization: Bearer YOUR_API_KEY" \ -H "Content-Type: application/json"```` ADVANCED TROUBLESHOOTING
Collecting Diagnostic Information
1. Note exact error message
2. Note when issue occurs
3. Gather browser console logs: - Press F12 to open developer tools - Go to Console tab - Copy error messages
4. Note system information: - OS version - Browser version - Available RAM and disk space
5. Take screenshots of issue
Contacting Support with Diagnostics - Email: support@abc-tech.com - Include: Error message, screenshots, system info - Attach: Console logs, diagnostic files - Expected response: Within 24 hours
Performance Optimization
For Fastest Experience
1. Update browser to latest version
2. Disable unnecessary extensions
3. Clear browser cache monthly
4. Use broadband internet (minimum 10 Mbps)
5. Close other memory-intensive applications
6. Use Chrome browser (optimized performance)
Cloud Sync Optimization - Enable selective sync to reduce bandwidth - Exclude large project folders you don't need - Use 2.4GHz WiFi for better stability - Reduce sync frequency if on limited data

A: Our software includes cloud synchronization, real-time collaboration, advanced analytics, and comprehensive API access. All plans include our core features with varying limits based on the plan tier. Q: How do I reset my password? A: You can reset your password by clicking "Forgot Password" on the login page. Enter your email address and follow the instructions sent to your inbox. If you don't receive the email, check your spam folder or contact support. Q: Do you offer a free trial? A: Yes! We offer a 14-day free trial of our Professional plan with full access to all features. No credit card required to start your trial. Q: Can I upgrade or downgrade my plan anytime? A: Absolutely! You can change your plan at any time from your account settings. Changes take effect at your next billing cycle. Q: How do I contact support? A: You can reach our support team via email at support@abc-tech.com or through the chat widget in your account dashboard. We typically respond within 24 business hours. Q: Is my data secure? A: Yes, we use enterprise-grade encryption for all data in transit and at rest. We comply with GDPR, CCPA, and SOC 2 Type II standards. Q: What file types can I upload? A: We support PDF, DOCX, XLSX, PPTX, PNG, JPG, and TXT files up to 100MB each. Premium plans can upload files up to 500MB. Q: How often is my data backed up? A: Your data is backed up continuously in real-time across multiple geographic regions for redundancy and disaster recovery. Q: Can I export my data? A: Yes, you can export all your data as JSON, CSV, or native file formats from the Export section in settings at any time. Q: Is there an API available? A: Yes! All paid plans include API access with rate limits based on your tier. Documentation is available in your account dashboard. If you need more help, reply with any account details, screenshots, invoice numbers, or error messages relevant to this request.
